Student Disability Services (SDS)

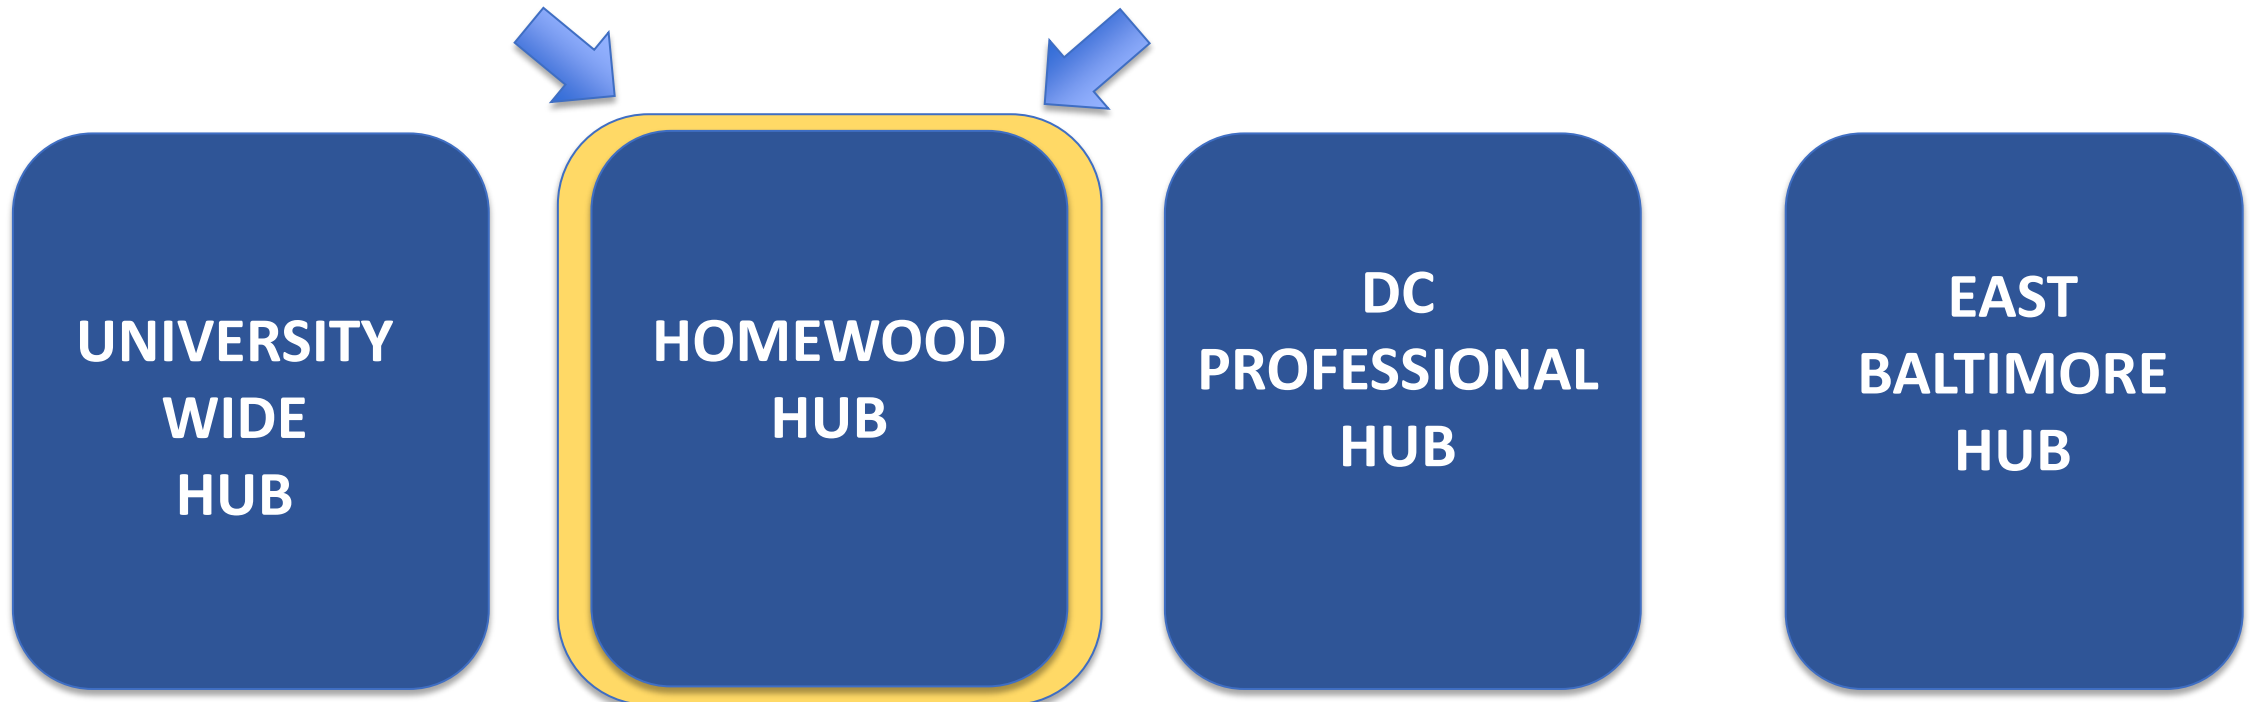

Homewood – Summer Programs Overview

Who is SDS?

SDS supports students with disabilities by working to ensure equal access and equal opportunity. Our SDS professional staff provide guidance and consultation to students and faculty and collaborate with campus partners to identify and remove barriers to help promote an inclusive environment for all students.

SDS has 4 Hubs throughout Johns Hopkins University to service students:

How Do Students Request Accommodations from SDS?

- ▶ New students can begin the process of working with SDS online: [Application form in AIM.](#)
- ▶ At the time of request, students indicate their disability(ies), its impact, request specific accommodations, and upload supporting documentation (guidelines are on SDS website) that indicates how their disability impacts them.
- ▶ SDS staff will meet with the student to determine possible accommodations before issuing accommodation letters.

COVID-19

- 1 Vaccination
- 2 Testing
- 3 Masking
- 4 Isolation

COVID requirements may change before or during the program

Vaccination

Students are encouraged to have received at least one dose of any FDA- or WHO- authorized COVID-19 vaccination.

We are not collecting proof of vaccination.

Testing

No pre-arrival testing

No asymptomatic testing

Symptomatic testing optional, but not available on campus

Students should bring their own COVID tests with them

Masking

We will follow university masking guidelines.

We encourage students to mask while travelling and while in crowded spaces for the week prior to arrival.

Isolation

Students and staff who test positive for COVID or have these symptoms- chest discomfort, chills, cough, decrease in appetite, diarrhea, fatigue, fever or feeling feverish, headache, muscle or body aches, new loss of taste or smell, runny or stuffy nose, sore throat, vomiting, weakness, or wheezing - will be asked to:

1. If they have symptoms: they must stay at home (commuter or staff) or isolate (residential) for at least 24 hours or until both the following are true:
 - a. Their symptoms are getting better overall AND
 - b. They have not had a fever (and are not using a fever-reducing medication)
2. Wear a KN-95, N95, or KF94 mask until they have been fever-free for five days AND their symptoms have been improving for five days.
3. Practice good hygiene by covering coughs and sneezes, washing or sanitizing their hands often, and cleaning frequently touched surfaces.
