How Do Students Request Accommodations from SDS?

complete this process as soon as possible

New students can begin the process of working with SDS online by following these steps:

1. Complete the **SDS online application** through our university-wide database, Accommodation Information Manager (AIM).
 - Select "EP – Engineering for Professionals (WSE)" as Primary School
2. Submit documentation after you submit the application.

Documentation is used to support the interactive process of exploring accommodation and services that will remove barriers. Our **Documentation Guidelines** provide information about what is needed to establish eligibility for services, and our **Documentation Form** can be completed by a qualified professional/provider. There is also **link to a web version of the form** that can be printed out.
3. **Schedule an Initial Meeting** to discuss your needs as well as potential accommodations and services.
